## **Independent Auditor's Report**

**To the Shareholders of Privatization Holding Company - K.P.S.C.  
State of Kuwait**

### **Report on Audit of the Consolidated Financial Statements**

#### **Opinion**

We have audited the consolidated financial statements of Privatization Holding Company - K.P.S.C. ("the Parent Company") and its subsidiaries ("the Group"), which comprise the consolidated statement of financial position as at 31 December 2021, and the related consolidated statement of profit or loss, profit or loss and other comprehensive income, changes in equity and cash flows for the financial year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at 31 December 2021, and its consolidated financial performance and its cash flows for the financial year then ended in accordance with International Financial Reporting Standards (IFRSs).

#### **Basis for Opinion**

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the consolidated financial statements section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Accountants ("IESBA Code") together with ethical requirements that are relevant to our audit of the consolidated financial statements in the State of Kuwait, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### **Emphasis of matter**

We draw attention to Note No. (23) to the accompanying consolidated financial statements regarding a claim letter from National Bank of Kuwait as a creditor to initiate execution procedures on the funds of another party and the guarantors. Our opinion is not qualified with respect to this matter.

#### **Other matter**

The consolidated financial statements of Privatization Holding Company – K.P.S.C. for the year ended 31 December 2020 were audited by another auditor who expressed an unqualified opinion on such consolidated financial statements on 29 March 2021.

#### **Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current year. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

## **Independent Auditor's Report (Continued)**

### **Key Audit Matters (Continued)**

#### ***Impairment of investment in associates***

The Group exercises significant influence over certain entities assessed to be associates with carrying value of KD 55,492,520 as at 31 December 2021. Investment in associates are accounted for under the equity method of accounting and management determines at the end of each reporting period the existence of any objective evidence through which the Group's investment in associates may be impaired. If there is an indication that the Group's interest in associate might be impaired, the management compares the entire carrying amount of the investment in associate to its recoverable amount.

As at 31 December 2021, management identified an impairment trigger for its listed associates where the carrying amount of the investment was higher than its fair value based in prevailing market price. Management therefore performed an impairment assessment to calculate the value in use, which includes estimate future cash flow projections, terminal value growth rate and discount rate.

The Group's management had performed an impairment testing which indicate that the recoverable amount is higher than the carrying value. Accordingly, No impairment has been recorded.

Giving the significant judgments and estimates involved in assessing the recoverable amounts of investment in associates, we have considered this as a key audit matter. Our audit procedures included, among others, evaluate management assessments whether objective evidence of impairment existed in relation to the Group's interest in the associates and the qualitative and quantitative factors used such as the investee's financial performance including dividends, market, economic or legal environment in which the associate operate.

We reviewed and evaluated the significant assumptions and valuation methods used by management, and the reasonableness and appropriateness of those assumptions and methods.

We focused on the adequacy of disclosures included in Note 11 to the consolidated financial statements.

**Other information included in the Group's annual report for the financial year ended 31 December 2021**  
Management is responsible for the other information. Other information consists of the information included in the Group's 2021 Annual Report, other than the consolidated financial statements and our auditor's report thereon. We have not obtained the annual report, including the report of the Group's Board of Directors, prior to the date of our auditor's report, and we expect to obtain these reports after the date of our auditor's report. In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard. Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

#### **Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements**

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRSs, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and adopting the going concern basis of accounting unless management either intends to liquidate the group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

## **Independent Auditor's Report (Continued)**

### **Auditor's Responsibilities for the Audit of the Consolidated Financial Statements**

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

We communicate with Those Charged with Governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide Those Charged with Governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Among the matters communicated with Those Charged with Governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current year and are therefore considered as a key audit matter. We disclosed these matters in our auditor's report unless local laws or regulations preclude public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

**Independent Auditor's Report (Continued)**

**Report on other legal and regulatory requirements**

In our opinion, proper books of account have been kept by the Parent Company and the consolidated financial statements, together with the contents of the report of the Parent Company's Board of Directors relating to these consolidated financial statements, are in accordance with the Parent Company's books. We further report that we obtained the information and explanations that we required for the purpose of our audit and that the consolidated financial statements incorporate information that is required by the Companies Law No. 1 of 2016 and its Executive Regulations, as amended, and by the Parent Company's Memorandum of Incorporation and Articles of Association, as amended, that an inventory was duly carried out and that, to the best of our knowledge and belief, no violations of the Companies Law No. 1 of 2016, and its Executive Regulations, as amended, or of the Parent Company's Memorandum of Incorporation and Articles of association, as amended, have occurred during the year ended 31 December 2021 that might have a material effect on the Group's financial position or its business.

We further report that, during the course of our audit, to the best of our knowledge and belief, we have not become aware of any violations of the provisions of Law No. 7 of 2010, concerning the Capital Markets Authority, its related regulations and the related instructions, as amended, during the year ended 31 December 2021 that might have a material effect on the Group's financial position or its business.

<b>Cash and cash equivalents at end of the year (Note 15)</b>	<b>991,608</b>	<b>625,632</b>

The notes set out on pages 11 to 56 form an integral part of these consolidated financial statements.

**1. Incorporation and activities**

Privatization Holding Company - K.P.S.C. (the "Parent Company") is a Kuwaiti shareholding Company registered on 10 October 1994 and is listed on the Boursa Kuwait.

The Parent Company is licensed to:

- Invest in Kuwaiti and foreign shareholding companies and limited liability companies and to participate in the establishment and management of such entities.
- Lend to such entities and act as their guarantor.
- Utilization of excess funds in investment in financial portfolios or real estate portfolios through specialised parties inside or outside Kuwait.
- Invest in real estate, hold patents and copy rights, and advance loans to associates.
- Represent foreign consulting firms in local market.

The Group comprises the Parent Company and its subsidiaries. Details of subsidiaries are set out in Note 5.

The Parent Company registered office is located at Sharq, Ahmad Al-Jaber Street, Dar Al-Awadi Tower, 23 Floor, P.O. Box 4323, Safat 13104, Kuwait

The consolidated financial statements were authorized for issue by the Parent Company's Board of Directors on 22 March 2022. The Annual General Assembly of the Parent Company's Shareholders has the power to amend these consolidated financial statements after issuance.

**2. Application of New and Revised International Financial Reporting Standards (IFRSs)**

**a) New standards, interpretations and amendments effective from 1 January 2021**

The accounting policies applied by the Group are consistent with those used in the previous year except for the changes due to implementation of the following new and amended International Financial Reporting Standards as of 1 January 2021.

**COVID-19-Related Rent Concessions (Amendments to IFRS 16)**

On 28 May 2020, the IASB issued Covid-19-Related Rent Concessions - amendment to IFRS 16 Leases. The amendments provide relief to lessees from applying IFRS 16 guidance on lease modification accounting for rent concessions arising as a direct consequence of the Covid-19 pandemic. As a practical expedient, a lessee may elect not to assess whether a Covid-19 related rent concession from a lessor is a lease modification. A lessee that makes this election accounts for any change in lease payments resulting from the Covid-19 related rent concession the same way it would account for the change under IFRS 16, if the change were not a lease modification.

The amendment was intended to apply until 30 June 2021, but as the impact of the Covid-19 pandemic is continuing, on 31 March 2021, the IASB extended the period of application of the practical expedient to 30 June 2022.

The amendment applies to annual reporting periods beginning on or after 1 April 2021.

**Interest Rate Benchmark Reform – IBOR 'phase 2' (Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16)**

The amendments provide temporary reliefs which address the financial reporting effects when an interbank offered rate (IBOR) is replaced with an alternative nearly risk-free interest rate (RFR). The amendments include the following practical expedients:

- A practical expedient to require contractual changes, or changes to cash flows that are directly required by the reform, to be treated as changes to a floating interest rate, equivalent to a movement in a market rate of interest.
- Permit changes required by IBOR reform to be made to hedge designations and hedge documentation without the hedging relationship being discontinued.

**2. Application of New and Revised International Financial Reporting Standards (IFRSs) (Continued)**

**a) New standards, interpretations and amendments effective from 1 January 2021 (Continued)**

***Interest Rate Benchmark Reform – IBOR 'phase 2' (Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16) (Continued)***

- Provide temporary relief to entities from having to meet the separately identifiable requirement when an RFR instrument is designated as a hedge of a risk component.

These amendments had no impact on the consolidated financial statements of the Group. The Group intends to use the practical expedients in future periods if they become applicable

**b) Standards and interpretations issued but not effective**

The new and amended standards that are issued, but not yet effective, up to the date of issuance of the Group's consolidated financial statements are disclosed below. The Group intend to adopt these new and amended standards, if applicable, when they become effective.

***IFRS 17 – Insurance Contracts***

This standard will be effective for annual periods beginning on or after 1 January 2023 and replaces IFRS 4 - Insurance Contracts. The new standard applies to all types of insurance contracts, regardless of the type of entities that issue them, as well as to certain guarantees and financial instruments with discretionary participation features. A few scope exceptions will apply. The overall objective of IFRS 17 is to provide an accounting model for insurance contracts that is more useful and consistent for insurers. In contrast to the requirements in IFRS 4, which are largely based on grandfathering previous local accounting policies, IFRS 17 provides a comprehensive model for insurance contracts, covering all relevant accounting aspects. The core of IFRS 17 is the general model, supplemented by:

- A specific adaptation for contracts with direct participation features (Variable fee approach).
- A simplified approach (premium allocation approach) mainly for short duration contracts.

Early application is permitted, provided an entity also applies IFRS 9 and IFRS 15 on or before the date it first applies IFRS 17.

This standard is not expected to have any material impact to the Group.

***Amendments to IAS 1: Classification of Liabilities as Current or Non-current***

On 23 January 2020, the IASB issued amendments to paragraphs 69 to 76 of IAS 1 to specify the requirements for classifying liabilities as current or non-current. The amendments clarify:

- What is meant by a right to defer settlement.
- That a right to defer must exist at the end of the reporting period.
- That classification is unaffected by the likelihood that an entity will exercise its deferral right.
- That only if an embedded derivative in a convertible liability is itself an equity instrument would the terms of a liability not impact its classification.

The amendments are effective for annual reporting periods beginning on or after 1 January 2023 and must be applied retrospectively. The Group is currently assessing the impact the amendments will have on current practice and whether existing loan agreements may require renegotiation.

2. Application of New and Revised International Financial Reporting Standards (IFRSs)  
(Continued)

b) Standards and interpretations issued but not effective (Continued)

Amendment to IFRS 3: Reference to the Conceptual Framework

In May 2020, the IASB issued Amendments to IFRS 3 Business Combinations - Reference to the Conceptual Framework. The amendments are intended to replace a reference to the Framework for the Preparation and Presentation of Financial Statements, issued in 1989, with a reference to the Conceptual Framework for Financial Reporting issued in March 2018 without significantly changing its requirements. The Board also added an exception to the recognition principle of IFRS 3 to avoid the issue of potential 'day 2' gains or losses arising for liabilities and contingent liabilities that would be within the scope of IAS 37 or IFRIC 21 Levies, if incurred separately.

At the same time, the Board decided to clarify existing guidance in IFRS 3 for contingent assets that would not be affected by replacing the reference to the Framework for the Preparation and Presentation of consolidated Financial Statements.

The amendments are effective for annual reporting periods beginning on or after 1 January 2022 and apply prospectively.

Amendments to IAS 16: Property, Plant and Equipment: Proceeds before Intended Use

In May 2020, the IASB issued Property, Plant and Equipment - Proceeds before Intended Use, which prohibits entities deducting from the cost of an item of property, plant and equipment, any proceeds from selling items produced while bringing that asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Instead, an entity recognises the proceeds from selling such items, and the costs of producing those items, in profit or loss.

The amendments are effective for annual reporting periods beginning on or after 1 January 2022 and must be applied retrospectively to items of property, plant and equipment made available for use on or after the beginning of the earliest period presented when the entity first applies the amendment.

The amendments are not expected to have a material impact on the Group.

Amendments to IAS 37: Onerous Contracts – Costs of Fulfilling a Contract

In May 2020, the IASB issued amendments to IAS 37 to specify which costs an entity needs to include when assessing whether a contract is onerous or loss-making.

The amendments apply a "directly related cost approach". The costs that relate directly to a contract to provide goods or services include both incremental costs and an allocation of costs directly related to contract activities. General and administrative costs do not relate directly to a contract and are excluded unless they are explicitly chargeable to the counterparty under the contract.

The amendments are effective for annual reporting periods beginning on or after 1 January 2022. The Group will apply these amendments to contracts for which it has not yet fulfilled all its obligations at the beginning of the annual reporting period in which it first applies the amendments.

Annual Improvements to IFRS Standards 2018 - 2020 cycles

The following is the summary of the amendments from the 2018-2020 annual improvements cycle:

IFRS 1 First-time Adoption of International Financial Reporting Standards – Subsidiary as a first-time adopter

The amendment permits a subsidiary that elects to apply paragraph D16 (a) of IFRS 1 to measure cumulative translation differences using the amounts reported by the parent, based on the parent's date of transition to IFRS. This amendment is also applied to an associate or joint venture that elects to apply paragraph D16 (a) of IFRS 1.

The amendment is effective for annual reporting periods beginning on or after 1 January 2022 with earlier adoption permitted.

2. Application of New and Revised International Financial Reporting Standards (IFRSs)  
(Continued)

b) Standards and interpretations issued but not effective (Continued)

Annual Improvements to IFRS Standards 2018-2020 cycles (Continued)

IFRS 9 Financial Instruments – Fees in the '10 percent' test for derecognition of financial liabilities

The amendment clarifies the fees that an entity includes when assessing whether the terms of a new or modified financial liability are substantially different from the terms of the original financial liability. These fees include only those paid or received between the borrower and the lender, including fees paid or received by either the borrower or lender on the other's behalf. An entity applies the amendment to financial liabilities that are modified or exchanged on or after the beginning of the annual reporting period in which the entity first applies the amendment.

The amendment is effective for annual reporting periods beginning on or after 1 January 2022 with earlier adoption permitted. The Group will apply the amendments to financial liabilities that are modified or exchanged on or after the beginning of the annual reporting period in which the entity first applies the amendment.

The amendments are not expected to have a material impact on the Group.

IFRS 16 Leases: Lease incentives

The amendment removes the illustration of payments from the lessor relating to leasehold improvements in Illustrative Example 13 accompanying IFRS 16. This removes potential confusion regarding the treatment of lease incentives when applying IFRS 16.

Definition of Accounting Estimates - Amendments to IAS 8

In February 2021, the IASB issued amendments to IAS 8, in which it introduces a definition of 'accounting estimates'. The amendments clarify the distinction between changes in accounting estimates and changes in accounting policies and the correction of errors. Also, they clarify how entities use measurement techniques and inputs to develop accounting estimates.

The amendments are effective for annual reporting periods beginning on or after 1 January 2023 and apply to changes in accounting policies and changes in accounting estimates that occur on or after the start of that period. Earlier application is permitted as long as this fact is disclosed.

The amendments are not expected to have a material impact on the Group.

Disclosure of Accounting Policies - Amendments to IAS 1 and IFRS Practice Statement 2

In February 2021, the IASB issued amendments to IAS 1 and IFRS Practice Statement 2 Making Materiality Judgements, in which it provides guidance and examples to help entities apply materiality judgements to accounting policy disclosures. The amendments aim to help entities provide accounting policy disclosures that are more useful by replacing the requirement for entities to disclose their 'significant' accounting policies with a requirement to disclose their 'material' accounting policies and adding guidance on how entities apply the concept of materiality in making decisions about accounting policy disclosures.

Disclosure of Accounting Policies - Amendments to IAS 1 and IFRS Practice Statement 2 (Continued)

The amendments to IAS 1 are applicable for annual periods beginning on or after 1 January 2023 with earlier application permitted. Since the amendments to the Practice Statement 2 provide non-mandatory guidance on the application of the definition of material to accounting policy information, an effective date for these amendments is not necessary.

The Group is currently assessing the impact of the amendments to determine the impact they will have on the Group's accounting policy disclosures.

**3. Significant accounting policies**

**3.1 Statement of compliance**

The consolidated financial statements of the Group have been prepared in accordance with the International Financial Reporting Standards (“IFRSs”) as issued by the International Accounting Standards Board (“IASB”), IFRIC interpretations as issued by the International Financial Reporting Interpretations Committee (“IFRIC”) and Companies Law No. 1 of 2016 and its Executive Regulations, as amended.

**3.2 Basis of preparation**

The consolidated financial statements of the Group have been prepared under historical cost convention except for investment property, financial assets at fair value through other comprehensive income and financial assets at fair value through profit or loss that have been stated at fair value.

The consolidated financial statements have been presented in Kuwaiti Dinars (“KD”), which is the functional and presentation currency of the Parent Company.

The preparation of consolidated financial statements in compliance with the adopted (“IFRSs”) requires the use of certain critical accounting estimates. It also requires management to exercise judgment in applying the Group's accounting policies. The areas where significant judgments and estimates have been made in preparing the consolidated financial statements and their effect are disclosed in Note 4.

The principal accounting policies adopted in the preparation of the consolidated financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

**3.3 Classification of assets and liabilities to current and non-current**

The Group presents the assets and liabilities in the consolidated statement of financial position based on their classification to current and non-current. The asset shall be current if:

- a) Expected to be recognized, intended to be sold, or depreciated within the normal operational cycle.
- b) Held primarily for the purpose of trading.
- c) Expected to be recognized within twelve months following the reporting date, or
- d) Cash and cash equivalents, unless its trading or usage is limited to settle an obligation for at least twelve months following the reporting date.

Except for the assets that are classified according to the above bases, all other assets shall be classified within the non-current assets.

The liability shall be deemed as current if it is:

- a) Expected to be settled in the normal operating cycle;
- b) Held primarily for the purpose of trading.
- c) Expected to be settled within twelve months following the reporting date, or
- d) There is no conditional right for postponing settlement of the liability for a period of at least twelve months after the reporting date.

Except for the liabilities classified under the basis described above, all other liabilities not satisfying the forgoing criteria are classified as non-current.

### **3. Significant accounting policies (Continued)**

#### **3.4 Basis of consolidation**

The consolidated financial statements include the financial statements of the Parent Company and its subsidiaries (together the "Group").

Subsidiaries (investees) are those enterprises controlled by the Parent Company. Control is achieved when the Parent Company:

- Has power over the investee;
- Is exposed, or has rights to variable returns from its involvement with the investee; and
- Has the ability to use its power to affect its returns.

The Parent Company reassess whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

When the Group has less than a majority of voting rights of an investee, it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Group considers all relevant facts and circumstances in assessing whether or not the Group's voting rights in an investee are sufficient to give it power, including:

- The size of the Group's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;
- Potential voting rights held by the Group, other vote holders or other parties;
- Rights arising from other contractual arrangements; and
- Any additional facts and circumstances that indicate that the Group has, or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous shareholders' meetings.

The financial statements of subsidiaries are included in the consolidated financial statements from the date that control effectively commences until the date that control effectively ceases. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in consolidated statement of profit or loss from the date the Parent Company gains control until the date when the Parent Company ceases to control the subsidiary. All inter-company balances and transactions, including inter-company profits and unrealized profits and losses are eliminated in full on consolidation. Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances.

Non-controlling interests in the net assets of consolidated subsidiaries are identified separately from the Group's equity therein. Consolidated statement of profit or loss and each component of other comprehensive income are attributed to the owners of the Parent Company and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance.

A change in the ownership interest of a subsidiary, without a change of control, is accounted for as an equity transaction. The carrying amounts of the group's ownership interests and non-controlling interests are adjusted to reflect changes in their relative interests in the subsidiaries.

Any difference between the amount by which non-controlling interests are adjusted and fair value of the consideration paid or received is recognized directly in equity and attributable to owners of the Parent Company. If the Group loses control over a subsidiary, it:

- Derecognizes the assets (including goodwill) and liabilities of the subsidiary;
- Derecognizes the carrying amount of any non-controlling interest;
- Derecognizes the cumulative translation differences recorded in equity;
- Recognizes the fair value of the consideration received;
- Recognizes the fair value of any investment retained;
- Recognizes any surplus or deficit in profit or loss; and
- Reclassifies the Parent Company's share of components previously recognized in other comprehensive income to profit or loss or retained earnings as appropriate.

### **3. Significant accounting policies (Continued)**

#### **3.5 Revenue recognition**

Revenue is measured based on the consideration to which the Group expects to be entitled in a contract with a customer and excludes amounts collected on behalf of third parties. The Group recognises revenue when it transfers control of a product or service to a customer.

The Group follows a 5-step process:

- Identifying the contract with a customer.
- Identifying the performance obligations.
- Determining the transaction price.
- Allocating the transaction price to the performance obligations.
- Recognising revenue when / as performance obligations are satisfied.

The total transaction price for a contract is allocated amongst the various performance obligations based on their relative stand-alone selling prices. The transaction price for a contract excludes any amounts collected on behalf of third parties.

IFRS 15 requires entities to exercise judgement, taking into consideration all of the relevant facts and circumstances when applying each step of the model to contracts with their customers. The standard also specifies the accounting for the incremental costs of obtaining a contract and the costs directly related to fulfilling a contract. In addition, the standard requires extensive disclosures.

Revenue is recognised either at a point in time or over time, when (or as) the Group satisfies performance obligations by transferring the promised goods or services to its customers.

The Group transfers control of a good or service over time (rather than at a point in time) when any of the following criteria are met:

- The customer simultaneously receives and consumes the benefits provided by the entity's performance as the entity performs.
- The Group's performance creates or enhances an asset (e.g., work in process) that the customer controls as the asset is created or enhanced.
- The Group's performance does not create an asset with an alternative use to the entity and the entity has an enforceable right to payment for performance completed to date.

Control is transferred at a point in time if none of the criteria for a good or service to be transferred over time are met. The Group considers the following factors in determining whether control of an asset has been transferred:

- The Group has a present right to payment for the asset.
- The customer has legal title to the asset.
- The Group has transferred physical possession of the asset.
- The customer has the significant risks and rewards of ownership of the asset.
- The customer has accepted the asset.

#### ***Contract liabilities and assets***

The Group recognizes contract liabilities for consideration received in respect of unsatisfied performance obligations and reports these amounts as other liabilities in the consolidated statement of financial position. Similarly, if the Group satisfies a performance obligation before it receives the consideration, the Group recognizes either a contract asset or a receivable in its consolidated statement of financial position, depending on whether something other than the passage of time is required before the consideration is due.

#### ***Costs to obtain the contract***

Incremental costs of obtaining a contract with a customer are capitalized when incurred as the Group expects to recover these costs and such costs would not have incurred if the contract has not been obtained. Sales commission incurred by the Group is expensed as the amortization period of such costs is less than a year.

**Notes to the consolidated financial statements  
For the year ended 31 December 2021**

---

**3. Significant accounting policies (Continued)**

**3.5 Revenue recognition (Continued)**

Revenue for the Group arises from:

*Sale of goods*

Sales represent the total invoiced amount of goods sold during the year. Revenue from sale of goods is recognized when or as the Group transfers control of the goods to the customer. For standalone sales, that are neither customized by the Group nor subject to significant integration services, control transfers at the point in time the customer takes undisputed delivery of the goods. Delivery occurs when the goods have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the customer, and either the customer has accepted the goods in accordance with the sales contract, the acceptance provisions have lapsed, or the Group has objective evidence that all criteria for acceptance have been satisfied.

*Rendering of services*

Revenue from service contracts is recognized when the service is rendered. Revenue is recognized over time where performance obligations are generally satisfied within the financial period.

*Construction contracts*

Revenue from construction contracts is recognized over time on a cost-to-cost method (input method), i.e. based on the proportion of contract costs incurred for work performed to date relative to the estimated total contract costs. Profit is only recognized when the contract reaches a point where the ultimate profit can be estimated with reasonable certainty. Claims, variation orders and incentive payments are included in the determination of contract profit when approved by contract owners. Anticipated losses on contracts are recognized in full as soon as they become apparent.

Where the outcome of a construction contract cannot be estimated reliably, contract revenue is recognized to the extent of contract costs incurred that it is probable will be recoverable. Contract costs are recognized as expenses in the period in which they are incurred.

*Production revenue*

Production revenue are recognised on sale of serials / projects rendering the service. Revenue are recognised at a point in time when the performance obligations are satisfied on transferred to the customer.

*Rental income*

Rental income is recognized, when earned, on a time apportionment basis.

*Revenue on sale of property*

Revenue on sale of property is recognized on the basis of the full accrual method as and when all of the following conditions are met:

- A sale is consummated and contracts are signed;
- The buyer's investment, to the date of the financial statements, is adequate to demonstrate a commitment to pay for the property;
- The Group has transferred control to the buyer; and
- Work to be completed is either, easily measurable and accrued or is not significant in relation to the overall value of the contract.

*Gain on sale of investments*

Gain on sale of investments is measured by the difference between the sale proceeds and the carrying amount of the investments at the date of disposal and is recognized at the same date of the sale.

**3. Significant accounting policies (Continued)**

**3.5 Revenue recognition (Continued)**

Dividend income

Dividend income is recognised when the right to receive payment is established.

Interest income

Interest income is recognized on a time apportionment basis using the effective interest method.

Other income and expenses

Other income and expenses are recognized on an accrual basis.

**3.6 Borrowing costs**

Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

All other borrowing costs are expensed in consolidated statement of profit or loss in the period in which they are incurred.

**3.7 Kuwait Foundation for the Advancement of Sciences (KFAS)**

Contribution to Kuwait Foundation for the Advancement of Sciences (KFAS) is calculated at 1% of the profit attributable to shareholders of the Parent Company before contribution to KFAS, NLST, Zakat and Board of Directors' remuneration, and after deducting the Parent Company's share of income from Kuwaiti shareholding subsidiaries and associates, transfer to statutory reserve, and any accumulated losses. No KFAS has been provided for since there was no eligible profit on which KFAS could be calculated.

**3.8 National Labor Support Tax (NLST)**

National Labor Support Tax (NLST) is calculated at 2.5% of the profit attributable to the shareholders of the Parent Company before contribution to KFAS, NLST, Zakat and Board of Directors' remuneration, and after deducting the Parent Company's share of profit from associates and subsidiaries listed in Boursa Kuwait, share of NLST paid by subsidiaries listed in Boursa Kuwait, and cash dividends received from companies listed in Boursa Kuwait in accordance with Law No. 19 of 2000 and Ministerial resolution No. 24 of 2006 and their Executive Regulations. No NLST has been provided for since there was no eligible profit on which NLST could be calculated.

**3.9 Zakat**

Zakat is calculated at 1% of the profit attributable to the shareholders of the Parent Company before contribution to KFAS, NLST, Zakat and Board of Directors' remuneration, and after deducting the Parent Company's share of profit from Kuwaiti shareholding associates and subsidiaries, share of Zakat paid by Kuwaiti shareholding subsidiaries and cash dividends received from Kuwaiti shareholding companies in accordance with Law No. 46 of 2006 and Ministerial resolution No. 58 of 2007 and their Executive Regulations. No Zakat has been provided for since there was no eligible profit on which Zakat could be calculated.

**3. Significant accounting policies (Continued)**

**3.10 Taxation**

Taxation on overseas subsidiaries is calculated on the basis of the tax rates applicable and prescribed according to the prevailing laws, regulations and instructions of the countries where these subsidiaries operate.

**3.11 Segment reporting**

The Group has two operating segments: investment and other segments. In identifying these operating segments, management generally follows the Group's service lines representing its main products and services. Each of these operating segments is managed separately as each requires different approaches and other resources. All inter-segment transfers are carried out at arm's length prices.

For management purposes, the Group uses the same measurement policies as those used in its consolidated financial statements. In addition, assets or liabilities which are not directly attributable to the business activities of any operating segment are not allocated to a segment.

**3.12 Business combinations**

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred, measured at acquisition date fair value and the amount of any non-controlling interests in the acquiree. For each business combination, the acquirer measures the non-controlling interests in the acquiree that are present ownership interests and entitle their holders to a proportionate share of the assets in the event of liquidation either at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition related costs are expensed as incurred.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

If the business combination is achieved in stages, the fair value of the acquirer's previously held equity interest in the acquiree is remeasured to fair value as at the acquisition date and the resulting gain or loss is included in the consolidated statement of profit or loss as appropriate. Any contingent consideration to be transferred by the acquirer will be recognized at fair value at the acquisition date. Subsequent changes to the fair value of the contingent consideration which is deemed to be an asset or liability will be recognized in accordance with IFRS 9: Financial Instruments. If the contingent consideration is classified as equity, it shall not be remeasured until it is finally settled within equity.

If the initial accounting for business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted during the measurement period, or additional assets or liabilities are recognized, to reflect new information obtained about facts and circumstances that existed at the acquisition date that, if known, would have affected the amounts recognized at that date.

**Notes to the consolidated financial statements  
For the year ended 31 December 2021**

**3. Significant accounting policies (Continued)**

**3.13 Property, plant and equipment**

The initial cost of property, plant and equipment comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use. Expenditures incurred after the property, plant and equipment have been put into operation, such as repairs and maintenance and inspection, are normally charged to consolidated statement of profit or loss in the period in which the expenses are incurred. In situations where it can be clearly demonstrated that the expenses have resulted in an increase in the future economic benefits expected to be obtained from the use of an item of property, plant and equipment beyond its originally assessed standard of performance, the expenses are capitalized as an additional cost of property, plant and equipment.

Property, plant and equipment are stated at cost less accumulated depreciation and impairment losses. When assets are sold or disposed of, their cost and accumulated depreciation are eliminated from the accounts and any profit or loss resulting from their disposal is included in the consolidated statement of profit or loss. The carrying amounts of property, plant and equipment are reviewed for impairment when events or changes in circumstances indicate the carrying amount may not be recoverable. If any such indication exists and where the carrying values exceed the estimated recoverable amount, the assets are written down to their recoverable amount, being the higher of their fair value less costs to sell and their value in use.

The Group recognizes right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any re-measurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognized, initial direct costs incurred, and lease payments made on or before the commencement date less any lease incentives received. The recognized right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life or the lease term. Right-of-use assets are subject to impairment.

Land is not depreciated. Depreciation is computed on a straight-line basis over the estimated useful lives of Property, plant and equipment as follows:

	<u>Years</u>
Office building and improvements	20-30
Machinery and equipment	6-20
Furniture and fixtures	4-10
Right of use	5

The useful life and depreciation method are reviewed periodically to ensure that the method and period of depreciation are consistent with the expected pattern of economic benefits from items of property, plant and equipment.

An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset.

**3.14 Intangible assets**

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value as at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses. Internally generated intangible assets, excluding capitalised development costs, are not capitalised and expenditure is reflected in the consolidated statement of profit or loss in the year in which the expenditure is incurred. The useful lives of intangible assets are assessed as either finite or indefinite.

**3. Significant accounting policies (Continued)**

**3.14 Intangible assets (Continued)**

Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the consolidated statement of profit or loss. Intangible assets with finite lives are amortised on a straight-line basis over a period of 1 to 4 years.

**Production of TV Shows**

Production of TV Shows represents producing TV shows. Production of TV Shows is initially carried at cost, and subsequently measured at cost less accumulated amortization and impairment losses.

Intangible assets with indefinite useful lives are not amortised, but are tested for impairment annually, either individually or at the CGU level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the consolidated statement of profit or loss when the asset is derecognised.

**3.15 Impairment of non-financial assets**

At the end of each reporting period, the Group reviews the carrying amounts of its assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. Where a reasonable and consistent basis of allocation can be identified, the Group's assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of the fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognized immediately in consolidated statement of profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset (cash-generating unit) in prior years. A reversal of an impairment loss is recognized immediately in consolidated statement of profit or loss.

**3. Significant accounting policies (Continued)**

**3.16 Investment property**

Investment property comprise completed property, property under construction or re-development held to earn rentals or for capital appreciation or both. Investment properties are initially measured at cost including purchase price and transaction costs. Subsequent to initial recognition, investment properties are stated at their fair value at the end of reporting period. Gains or losses arising from changes in the fair value of investment properties are included in consolidated statement of profit or loss for the period in which they arise.

Subsequent expenditure is capitalized to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred. When part of an investment property is replaced, the carrying amount of the replaced part is derecognized.

These values are supported by market evidence and are determined by external professional valuers with sufficient experience with respect to both the location and the nature of the investment property.

Investment properties are derecognized when either they have been disposed of (i.e. at the date the recipient obtains control) or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. Gains or losses arising on the retirement or disposal of an investment property are recognized in consolidated statement of profit or loss.

Transfers are made to investment property when, and only when, there is a change in use, evidenced by the end of owner occupation or commencement of an operating lease to another party. Transfers are made from investment property when, and only when, there is a change in use, evidenced by commencement of owner occupation or commencement of development with a view to sale. If owner-occupied property becomes an investment property, the Group accounts for such property in accordance with the policy stated under property, plant and equipment up to the date of change in use.

**3.17 Investment in associates**

Associates are those entities in which the Group has significant influence which is the power to participate in the financial and operating policy decisions of the associate but is not control or joint control over those policies. Under the equity method, investment in associates are carried in the consolidated statement of financial position at cost as adjusted for changes in the Group's share of the net assets of the associate from the date that significant influence effectively commences until the date that significant influence effectively ceases, except when the investment is classified as held for sale, in which case it is accounted as per IFRS 5 "Non-current Assets Held for Sale and Discontinued Operations".

The Group recognizes in its consolidated statement of profit or loss for its share of results of operations of the associate and in its other comprehensive income for its share of changes in other comprehensive income of associate.

Losses of an associate in excess of the Group's interest in that associate (which includes any long-term interests that, in substance, form part of the Group's net investment in the associate) are not recognized except to the extent that the Group has an obligation or has made payments on behalf of the associate. Such long-term interests that, in substance, form part of the Group's net investment in the associate are accounted for in accordance with IFRS 9 Financial Instruments. The Group first applies impairment losses, if any, in accordance with IFRS 9 before applying share of losses of an associate to such long-term interests.

**3. Significant accounting policies (Continued)**

**3.17 Investment in associates (Continued)**

Gains or losses arising from transactions with associates are eliminated against the investment in the associate to the extent of the Group's interest in the associate.

The difference in reporting dates of the associates and the Group is not more than three months. Adjustments are made for the effects of significant transactions or events that occur between that date and the date of the Group's consolidated financial statements. The associate's accounting policies conform to those used by the Group for like transactions and events in similar circumstances.

Any excess of the cost of acquisition over the Group's share of the net fair value of the identifiable assets, liabilities and contingent liabilities of the associate recognized at the date of acquisition is recognized as goodwill. The goodwill is included within the carrying amount of the investment in associates and is assessed for impairment as part of the investment. If the cost of acquisition is lower than the Group's share of the net fair value of the identifiable assets, liabilities and contingent liabilities, the difference is recognized immediately in consolidated statement of profit or loss.

The Group determines at each reporting date whether there is any objective evidence that the investment in associate is impaired and determine if necessary, to recognize any impairment loss with respect to the investment. If there is such evidence, the entire carrying amount of the investment (including goodwill) is tested for impairment and the Group calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value and recognizes the amount in consolidated statement of profit or loss. Any reversal of that impairment loss is recognized to the extent that the recoverable amount of the investment subsequently increases.

Upon loss of significant influence over the associate, the Group measures and recognizes any retaining investment at its fair value. Any difference between the carrying amount of the associate upon loss of significant influence and the fair value of the retaining investment and proceeds from disposal is recognized in consolidated statement of profit or loss.

**3.18 Financial instruments**

The Group classifies its financial instruments as financial assets and financial liabilities. Financial assets and financial liabilities are recognized when the Group becomes a party of the contractual provisions of such instruments.

Financial instruments are classified as liabilities or equity in accordance with the substance of the contractual arrangement. The interests, distributions, profits, and losses relating to financial instrument classified as liabilities are included as expense or income. Distributions to holders of financial instruments classified as equity are charged directly to equity. Financial instruments are recorded at net when the Group has a legally enforceable right to settle the assets and liabilities at net and intends to settle either on a net basis or to realize the asset and settle the liability simultaneously.

Financial assets and financial liabilities carried on the consolidated statement of financial position include financial assets at fair value through other comprehensive income, accounts receivable and other debit balances, financial assets at fair value through profit or loss, cash and cash equivalents, term loans, accounts payable and other credit balances and bank overdraft.

**3. Significant accounting policies (Continued)**

**3.18 Financial instruments (Continued)**

**Financial assets:**

**Recognition, initial measurement and derecognition**

To determine their classification and measurement category, IFRS 9 requires all financial assets, except equity instruments and derivatives, to be assessed based on a combination of the entity's business model for managing the assets and the instruments' contractual cash flow characteristics.

The Group determines its business model at the level that best reflects how it manages groups of financial assets to achieve its business objectives and in order to generate contractual cash flows. That is, whether the Group's objective is solely to collect the contractual cash flows from the assets or is to collect both the contractual cash flows and cash flows arising from the sale of assets. If neither of these is applicable (e.g. financial assets are held for trading purposes), then the financial assets are classified as part of 'Sell' business model and measured at FVPL. The Group's business model is not assessed on an instrument-by-instrument basis, but at a higher level of aggregated portfolios.

Purchases and sales of those financial assets are recognized on trade-date – the date on which the Group commits to purchase or sell the asset. Financial assets are initially recognized at fair value plus transaction costs for all financial assets not carried at FVPL.

A financial asset is derecognized either when: the contractual rights to receive the cash flows from the financial asset have expired; or the Group has transferred its rights to receive cash flows from the financial asset and either (a) has transferred substantially all the risks and rewards of ownership of the financial asset, or (b) has neither transferred nor retained substantially all the risks and rewards of the financial asset, but has transferred control of the financial asset. Where the Group has retained control, it shall continue to recognize the financial asset to the extent of its continuing involvement in the financial asset.

**Classification of financial assets**

Financial assets are classified in the consolidated financial statements into the following categories upon initial recognition:

- Debt instruments at amortized cost.
- Debt instruments at fair value through other comprehensive income.
- Equity instruments at fair value through other comprehensive income.
- Equity instruments at Fair value through profit or loss.

**Subsequent measurement**

**Debt instruments at amortized cost**

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at fair value through profit or loss:

- It is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- Its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Debt instruments measured at amortized cost are subsequently measured at amortized cost using the effective yield method adjusted for impairment losses if any. Gains and losses are recognized in consolidated statement of profit or loss when the asset is derecognized, modified or impaired.

3. Significant accounting policies (Continued)

3.18 Financial instruments (Continued)

Financial assets: (Continued)

Subsequent measurement (Continued)

Financial assets carried at amortised cost consist of cash and cash equivalents and accounts receivable and other debit balances classified as debt instruments at amortized cost.

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and at banks and other short-term highly liquid investments with original maturities of three months or less that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value.

Trade receivables

Trade receivables are amounts due from customers for merchandise sold or services performed in the ordinary course of business and recognized initially at fair value and subsequently measured at amortized cost using the effective interest method, less provision for impairment.

Receivables which are not categorised under any of the above are classified as “other debit balances”.

Equity instruments at fair value through other comprehensive income (FVOCI)

Upon initial recognition, the Group may elect to classify irrevocably some of its equity instruments at FVOCI when they meet the definition of Equity under IAS 32 Financial Instruments: Presentation and are not held for trading. Such classification is determined on an instrument-by-instrument basis.

Gains and losses on these equity instruments are never recycled to consolidated statement of profit or loss. Dividends are recognized in consolidated statement of profit or loss when the right of the payment has been established, except when the Group benefits from such proceeds as a recovery of part of the cost of the instrument, in which case, such gains are recorded in OCI. Equity instruments at FVOCI are not subject to an impairment assessment. Upon disposal, cumulative gains or losses are reclassified from cumulative changes in fair value to retained earnings in the statement of changes in equity. Interest income and dividends are recorded in consolidated statement of profit or loss.

The financial assets at FVOCI represent quoted and unquoted equity investments and funds and portfolios.

Financial assets at FVPL

The Group classifies financial assets as held for trading when they have been purchased or issued primarily for short-term profit making through trading activities or form part of a portfolio of financial instruments that are managed together, for which there is evidence of a recent pattern of short-term profit taking. Held-for-trading assets are recorded and measured in the consolidated statement of financial position at fair value. In addition, on initial recognition, the Group may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortized cost or at FVOCI as at FVPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Changes in fair value, gain on disposal, interest income and dividends are recorded in consolidated statement of profit or loss according to the terms of the contract, or when the right to payment has been established.

The financial assets at FVPL are represented in quoted and unquoted equity investments and funds.

**3. Significant accounting policies (Continued)**

**3.18 Financial instruments (Continued)**

**Financial assets: (Continued)**

**Impairment of financial assets**

The Group recognizes an allowance for expected credit losses (ECL) for all debt instruments not held at fair value through profit or loss.

ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive. The shortfall is then discounted at an approximation to the asset's original effective interest rate.

For trade and other receivables, the Group has applied the standard's simplified approach and has calculated ECLs based on lifetime expected credit losses. Accordingly, the Group does not track changes in credit risk and assesses impairment on a collective basis. The Group has established a provision matrix that is based on the Group's historical credit loss experience, adjusted for forward-looking factors specific to the customers and the economic environment. Exposures were segmented based on common credit characteristics such as credit risk grade, geographic region and industry, delinquency status and age of relationship where applicable.

Measurement of the expected credit losses is determined by a probability-weighted estimate of credit losses over the expected life of the financial instrument. ECLs for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets and charged to consolidated statement of profit or loss. For debt instruments at FVOCI, the loss allowance is charged to consolidated statement of profit or loss.

**Financial liabilities**

All financial liabilities are initially recognized at fair value and in case of loans, borrowings and creditors directly attributable transactions costs are discounted. All financial liabilities are subsequently measured at fair value through profit or loss or at amortised cost using the effective interest rate method.

**Accounts payable**

Accounts payable include trade and other payables. Trade payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Trade payables are recognized initially at fair value and subsequently measured at amortized cost using the effective interest method. Accounts payable are classified as current liabilities if payment is due within one year or less (or in the normal operating cycle of the business if longer). If not, they are presented as non - current liabilities.

**Borrowings**

Borrowings are recognized initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortized cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognized in consolidated statement of profit or loss over the period of the borrowings using the effective interest method.

Fees paid on the establishment of loan facilities are recognized as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw-down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalized as a pre-payment for liquidity services and amortized over the period of the facility to which it relates.

**3. Significant accounting policies (Continued)**

**3.18 Financial instruments (Continued)**

**Financial liabilities (Continued)**

**Derecognition of financial liabilities**

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in consolidated statement of profit or loss.

**Offsetting of financial assets and liabilities**

Financial assets and financial liabilities are offset and the net amount reported in the consolidated statement of financial position if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

**3.19 Inventories**

Inventories are stated at the lower of cost or net realisable value. Cost includes all expenses directly attributable to the manufacturing process as well as suitable portions of related production overheads, based on normal operating capacity. Cost of finished goods is calculated using first-in first-out method. For other items of inventory, cost is calculated using the weighted average cost method.

Net realizable value is the estimated selling price in the ordinary course of business less the costs of completion and selling expenses. Write-down is made for obsolete and slow-moving items based on their expected future use and net realizable value.

**3.20 Fair value of financial instruments**

The fair value of financial instruments that are traded in active markets at each reporting date is determined by reference to quoted market prices or dealer price quotations (bid price for long positions and ask price for short positions), without any deduction for transaction costs.

For financial instruments not traded in an active market, the fair value is determined using appropriate valuation techniques. Such techniques may include using recent arm's length market transactions; reference to the current fair value of another instrument that is substantially the same; a discounted cash flow analysis or other valuation models.

**3.21 Equity, reserves and other equity items**

Share capital represents the nominal value of shares that have been issued and paid up.

Reserves (statutory and general) represent retained amounts from annual profits being withheld in such accounts by virtue of requirements established in the Parent Company's Memorandum of Incorporation and Articles of Association and Companies' law and its Executive Regulations.

Other components of equity include the following:

- Foreign currency translation reserve – comprises foreign currency translation differences arising from the translation of financial statements of the Group's foreign entities into Kuwaiti Dinars.
- Fair value reserve of financial assets at FVOCI – comprises gains and losses relating to financial assets at fair value through other comprehensive income.
- Other reserves – mainly comprises gains and losses arising from partial acquisition and disposal of subsidiaries and change in other reserves of associates.

Accumulated losses include current year loss and prior period accumulated losses.

**3. Significant accounting policies (Continued)**

**3.22 Share premium**

This represents cash received in excess of the par value of the shares issued. The share premium is not available for distribution except in cases stipulated by law.

**3.23 Treasury shares**

Treasury shares consist of the Parent Company's own shares that have been issued, subsequently reacquired by the Group and not yet reissued or cancelled. The treasury shares are accounted for using the cost method. Under the cost method, the weighted average cost of the shares reacquired is charged to a contra equity account. When the treasury shares are reissued, gains are credited to a separate account in shareholders' equity (treasury shares reserve) which is not distributable. Any realized losses are charged to the same account to the extent of the credit balance on that account. Any excess losses are charged to retained earnings, reserves, and then share premium respectively. Gains realized subsequently on the sale of treasury shares are first used to offset any recorded losses in the order of share premium, reserves, retained earnings and the treasury shares reserve account. No cash dividends are paid on these shares. The issue of bonus shares increases the number of treasury shares proportionately and reduces the average cost per share without affecting the total cost of treasury shares.

Where any Group's company purchases the Parent Company's equity share capital (treasury shares), the consideration paid, including any directly attributable incremental costs is deducted from equity attributable to the Parent Company's equity holders until the shares are cancelled or reissued. Where such shares are subsequently reissued, any consideration received, net of any directly attributable incremental transaction costs, is included in equity attributable to shareholders of the Parent Company.

**3.24 Dividend distribution to shareholders**

The Group recognizes a liability to make cash and non-cash distributions to shareholders of the Parent Company when the distribution is authorized and the distribution is no longer at the discretion of the Group. A distribution is authorized when it is approved by the shareholders of the Parent company at the Annual General Meeting. A corresponding amount is recognized directly in equity.

Upon distribution of non-cash assets, any difference between the carrying amount of the liability and the carrying amount of the assets distributed is recognized in the consolidated statement of profit or loss.

Distributions for the year that are approved after the reporting date are disclosed as an event after the date of the consolidated statement of financial position.

**3.25 Employees' end of service benefits**

The Group provides end of service benefits to its employees. The entitlement to these benefits is based upon the employees' final salary and length of service, subject to the completion of a minimum service period in accordance with relevant labour law and the employees' contracts. The expected costs of these benefits are accrued over the period of employment. This liability, which is unfunded, represents the amount payable to each employee as a result of termination on the reporting date.

With respect to its Kuwaiti national employees, the group makes contributions to the Public Institution for Social Security calculated as a percentage of the employees' salaries. The group's obligations are limited to these contributions, which are expensed when due.

**3. Significant accounting policies (Continued)**

**3.26 Foreign currency translation**

*Functional and presentation currency*

Each entity in the Group determines its own functional currency and items included in the consolidated financial statements of each entity are measured using that functional currency.

*Foreign currency transactions and balances*

Foreign currency transactions are translated into the functional currency of the respective group entity, using the exchange rates prevailing at the dates of the transactions (spot exchange rate). Foreign exchange gains and losses resulting from the settlement of such transactions and from the remeasurement of monetary items denominated in foreign currency at year-end exchange rates are recognised in consolidated statement of profit or loss. Non-monetary items are not retranslated at year-end and are measured at historical cost (translated using the exchange rates at the transaction date), except for non-monetary items measured at fair value which are translated using the exchange rates at the date when fair value was determined.

*Foreign operations*

In the Group's consolidated financial statements, all assets, liabilities and transactions of Group entities with a functional currency other than the KD are translated into KD upon consolidation. The functional currency of the entities in the Group has remained unchanged during the reporting period.

On consolidation, assets and liabilities have been translated into KD at the closing rate at the reporting date. Goodwill and fair value adjustments arising on the acquisition of a foreign entity have been treated as assets and liabilities of the foreign entity and translated into KD at the closing rate. Income and expenses have been translated into KD at the average rate over the reporting period. Exchange differences are charged/credited to other comprehensive income and recognised in the foreign currency translation reserve in equity. On disposal of a foreign operation, the related cumulative translation differences recognised in equity are reclassified to consolidated statement of profit or loss and are recognised as part of the gain or loss on disposal.

**3.27 Provisions**

A provision is recognized when the Group has a present legal or constructive obligation as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. Provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimate. Where the effect of the time value of money is material, the amount of a provision is the present value of the expenditures expected to be required to settle the obligation. Provisions are not recognized for future operating losses.

**3.28 Contingent assets and liabilities**

Contingent liabilities are not recognized in the consolidated financial statements unless it is probable as a result of past events that an outflow of economic resources will be required to settle a present, legal or constructive obligation; and the amount can be reliably estimated. Else, they are disclosed unless the possibility of an outflow of resources embodying economic losses is remote.

Contingent assets are not recognized in the consolidated financial statements but disclosed when an inflow of economic benefits as a result of past events is probable

**3. Significant accounting policies (Continued)**

**3.29 Leases**

The Group as a lessor

Leases in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Other lease contracts are classified as financing leases. The determination of whether an arrangement is, or contains a lease is based on the substance of the arrangement and requires an assessment of whether the fulfillment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset.

Operating lease

Rental income from operating leases is recognised on a straight-line basis over the lease term. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised on a straight-line basis over the lease term.

Group as a lessee

The Group assesses whether a contract is or contains a lease, at inception of the contract. The Group recognizes a right-of-use asset and a corresponding lease liability with respect to all lease arrangements in which it is the lessee.

Right of use assets

The Group recognizes right of use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right of use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any re-measurement of lease liabilities, the cost of right of use assets includes the amount of lease liabilities recognized, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Unless the Group is reasonably certain to obtain ownership of the leased asset at the end of the lease term, the recognized right of use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term. Right of use assets are subject to impairment.

Lease liabilities

At the commencement date of the lease, the Group recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating a lease, if the lease term reflects the Group exercising the option to terminate. The variable lease payments that do not depend on an index or a rate are recognized as expense in the period on which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of profit and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the in-substance fixed lease payments or a change in the assessment to purchase the underlying asset.

Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to its short-term leases of property and equipment (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered of low value. Lease payments on short-term leases and leases of low-value assets are recognized as expense on a straight-line basis over the lease term.

**3. Significant accounting policies (Continued)**

**3.30 Related party transactions**

Related parties consist of major Shareholders, subsidiaries, associates, directors, executive officers, their close family members and companies of which they are principal shareholders. All related party transactions are to be approved by management.

**4. Significant accounting judgments and key sources of estimation uncertainty**

In the application of the Group's accounting policies, which are described in Note 3, the management is required to make judgments, estimates and assumption about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

**Significant accounting judgments**

In the process of applying the Group's accounting policies, management has made the following significant judgments, which have the most significant effect on the amounts recognised in the consolidated financial statements:

**Classification of financial assets**

On acquisition of a financial asset, the Group decides whether it should be classified as "at fair value through profit or loss", "at fair value through other comprehensive income" or "at amortised cost". IFRS 9 requires all financial assets, except equity instruments and derivatives, to be assessed based on a combination of the Group's business model for managing the assets of the instrument's contractual cash flow characteristics. The Group follows the guidance of IFRS 9 on classifying its financial assets and is explained in Note 3.

**The Group's status as a principal**

The Group regularly conducts a revision and assessment to determine whether its current status as a principal or an agent in its commercial transactions has changed. Such revision and assessment cover any change in the overall relationship between the Group and other parties dealing with the Group, which may mean that its current status as a principal or an agent has changed. Such as if changes occurred to rights of the Group or other parties, the Group would reconsider its current status as a principal or an agent. Initial assessment considers market conditions that originally led the Group to consider itself as principal working as a main principal or an agent in arrangements of revenues contracts. The Group concluded that it works as a main principal in all contracts and arrangements leading to revenues to the Group.

**Revenue recognition**

Revenue is recognized to the extent it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured. The determination of whether the revenue recognition criteria as specified under IFRS 15 and revenue accounting policy explained in Note 3.5 are met requires significant judgment.

4. Significant accounting judgments and key sources of estimation uncertainty (Continued)

Significant accounting judgments (Continued)

Classification of properties

Upon acquisition of properties, the Group classifies the properties into one of the following categories, based on the intention of the management for the use of the properties:

- Properties under development  
When the intention of the Group is to develop lands and properties in order to sell it in the future, both the land and the construction costs are classified as properties under development.
- Properties held for trading  
When the intention of the Group is to sell properties in the ordinary course of business, the properties is classified as properties held for trading.
- Investment properties  
When the intention of the Group is to earn rentals from properties or hold it for capital appreciation or if the intention is not determined for properties, the properties are classified as investment properties.

Provision for expected credit losses and inventory

The determination of the recoverability of the amount due from customers, marketable of inventory and the factors determining the impairment of the accounts receivable and inventory involve significant judgments.

Control assessment

When determining control over an investee, management considers whether the Group has a 'de facto' power to control an investee if it holds less than 50% of the investee's voting rights. The assessment of the investee's relevant activities and the ability to use the Group's power to affect the investee's variable returns requires significant judgment.

Significant influence assessment

When determining significant influence over an investee, management considers whether the Group has the power to participate in the financial and operating policy decisions of the investee if it holds less than 20% of the investee's voting rights. The assessment, which requires significant judgment, involves consideration of the Group's representation on the investee's board of directors, participation in policy making decisions and material transactions between the investor and investee.

Leases

Significant opinions on requirements for applying IFRS 16 include, among others, the following:

- Determine whether the contract (part thereof) contains a lease.
- Determine whether it is reasonably certain that extension or termination option will be exercised.
- Classification of lease agreements (when the entity is the lessor).
- Determine whether the variable payments are substantially fixed.
- Determine whether there are multiple leases in the arrangement.
- Determine the sale price of leased and non-leased items.

**Estimates uncertainty**

Information about estimates and assumptions that have the most significant effect on recognition and measurement of assets, liabilities, income and expenses is provided below. Actual results may be substantially different.

4. Significant accounting judgments and key sources of estimation uncertainty (Continued)

**Estimates uncertainty (Continued)**

Useful lives of depreciable assets

Management reviews its estimate of the useful lives of depreciable assets at each reporting date, based on the expected utility of the assets. Uncertainties in these estimates relate to technical obsolescence that may change the utility of certain software and equipment.

Impairment of associates

After application of the equity method, the Group determines whether it is necessary to recognise any impairment loss on the Group's investment in its associated companies, at each reporting date based on existence of any objective evidence that the investment in the associate is impaired. If this is the case the Group calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value and recognises the amount in the consolidated statement of profit or loss.

Leases

Key sources of estimation uncertainty in the application of IFRS 16 include, among others, the following:

- Estimation of the lease term;
- Determination of the appropriate rate to discount the lease payments;
- Assessment of whether a right-of-use asset is impaired.

Fair value of unquoted financial assets

If the market for a financial asset is not active or not available, the Group establishes fair value by using valuation techniques which include the use of recent arm's length transactions, reference to other instruments that are substantially the same, discounted cash flow analysis, and option pricing models refined to reflect the issuer's specific circumstances. This valuation requires the Group to make estimates about expected future cash flows and discount rates that are subject to uncertainty.

Valuation of investment properties

The Group carries its investment properties at fair value, with change in fair values being recognized in the consolidated statement of profit or loss. The fair value of investment property is determined by real estate valuation experts using recognized valuation techniques and the principles of IFRS 13.

Two main methods were used to determine the fair value of the investment properties:

- Income approach, where the property's value is estimated based on the income produced and is computed by dividing the property's net operating income by the expected rate of return on the property in the market, known as 'Capitalization Rate'.
- Comparative analysis is based on the assessment made by an independent real estate appraiser using values of actual deals transacted recently by other parties for properties in a similar location and condition and based on the knowledge and experience of the real estate appraiser.

Impairment of non-financial assets

Impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs to sell and its value in use. The fair value less costs to sell calculation is based on available data from binding sales transactions in an arm's length transaction of similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a discounted cash flow model. The cash flows are derived from the budget for the next five years and do not include restructuring activities that the Group is not yet committed to or significant future investments that will enhance the asset's performance of the cash generating unit being tested. The recoverable amount is most sensitive to the discount rate used for the discounted cash flow model as well as the expected future cash inflows and the growth rate used for extrapolation purposes.

**4. Significant accounting judgments and key sources of estimation uncertainty (Continued)**

**Estimates uncertainty (Continued)**

*Provision for expected credit losses of trade receivables and other debit balances*

The Group uses a provision matrix to calculate ECLs for trade receivables and other debit balances. The provision rates are based on days past due for groupings of various customer segments that have similar loss patterns (i.e., by geographical region, services type, customer and type). The provision matrix is initially based on the Group's historical observed default rates.

The Group calibrate the matrix to adjust the historical credit loss experience with forward-looking information.

For instance, if forecast economic conditions (i.e., gross domestic product, stock market capitalization) are expected to deteriorate over the next year which can lead to an increased number of defaults in the brokerage sector, the historical default rates are adjusted. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

The assessment of the correlation between historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and of forecast economic conditions. The Group's historical credit loss experience and forecast of economic conditions may also not be representative of customer's actual default in the future. The information about the ECL on the Group's trade receivables and other debit balances is disclosed in Note 13.

**5. Investment in subsidiaries**

The consolidated financial statements include the financial statements of the Parent Company and the following subsidiaries (together the "Group"):

	Country of incorporation	Percentage of holding %		Activities
		2021	2020	
<b>Held directly:</b>				
Global Projects Holding Company – W.L.L. ("GPHC") (a)	State of Kuwait	99%	99%	Investment
Specialized Environmental Services Company - W.L.L. ("SES") (a)	State of Kuwait	99%	99%	Investment
Global Professional General Trading Company -W.L.L.	State of Kuwait	62%	62%	General trading and investment

10. Investment property

	2021 KD	2020 KD
Balance at the beginning of the year	116,190	108,158
Change in fair value	11,639	8,032
Balance at the end of the year	127,829	116,190

Management of the Group has complied with the Executive Regulations of the Capital Markets Authority regarding the valuation of investment property.

The fair value of investment properties as at 31 December 2021 has been determined by external licensed and certified valuer.

The investment property amounting to KD 127,829 (2020: KD 116,190) are registered in the name of key management personnel and are recorded in favor of the Group based on a waiver letter.

Fair value hierarchy disclosures for investment property are given in Note 26.3.

**Privatization Holding Company – K.P.S.C. and its subsidiaries  
State of Kuwait**

**Notes to the consolidated financial statements  
For the year ended 31 December 2021**

**11. Investment in associates**

The details of the Group's investment in associates are as follows:

Name of the company	Country of incorporation	Equity interest %		Activities
		2021	2020	
Kuwait Building Materials Manufacturing Company - K.S.C.C. ("KBMMC")	State of Kuwait	46.99%	46.99%	Building materials
First Equilease for Equipment and Transportation - K.S.C. (Closed) ("FTC") (a)	State of Kuwait	16%	16%	Transportation services
Kingdom Electricity Company – J.S.C.C ("KEC")	The Hashemite Kingdom of Jordan	30%	30%	Energy and industrial projects
Nawand Communications Holding Company - BSC (Closed) ("Nawand") (a)	Kingdom of Bahrain	17.3%	17.3%	Telecom services
Kuwait Pillars for Financial Investment Company – K.S.C.C. ("KPFT") [Formerly Strategia Investment Company - KPSC ("Strategia")]	State of Kuwait	42.98%	42.98%	Investments
National Industries Company – KPSC and subsidiaries ("NIC") (a)	State of Kuwait	14.10%	14.10%	Manufacturing and marketing building materials
Middle East Complex for Eng., Electronics & Heavy Industries - PLC ("MECE")	The Hashemite Kingdom of Jordan	37.29%	37.31%	General trading and contracting
Privatization Engineering General Building Contracting Company -WLL (b)	State of Kuwait	51%	51%	General Building Contracting
Eastern United Petroleum Services Company – KSC (Closed) ("EUPS")	State of Kuwait	-	42.78%	Oil and gas activities PPP project with a residential and a mall component (BOT)
J3 for management & development of lands and real estate Company -WLL	State of Kuwait	32.5%	32.5%	(BOT)

- a) Investment in FTC, Nawand and NIC have been classified as investment in associates since the Group exercises significant influence over these companies through representations on their Board of Directors and participation in their decision-making process in relation to their financial and operating policies.
- b) The Group exercises significant influence over Privatization Engineering General Building Contracting Company for General Contracting - W.L.L. through participation in the decision-making process in relation to their financial and operating policies.

Notes to the consolidated financial statements  
For the year ended 31 December 2021

11. Investment in associates (Continued)

Movement in investment in associates during the year is as follows:

	2021	2020
	KD	KD
Balance at beginning of the year	51,037,053	54,284,485
Additions	2,849,420	338,268
Disposal (a)	(2,148,900)	-
Cash dividends received from associates	-	(566,114)
Group's share of results from associates	3,173,351	(2,034,981)
Group's share of other comprehensive income from associates' cumulative changes in fair value	61,445	381,103
Group's share of other comprehensive (loss) / income from associates' foreign currency translation adjustment	(67,041)	32,905
Group's share of other comprehensive income / (loss) from associates' other reserves	544,347	(1,440,045)
Other reserves	(246,158)	41,432
Adjustment due to loss from downstream transaction (b)	289,003	-
Balance at end of the year	<u>55,492,520</u>	<u>51,037,053</u>

- a) During the year ended 31 December 2021, the Group sold its investment in an associate (Eastern United Petroleum Services Company – KSC (Closed) (“EUPS”)) for an amount of KD 2,201,065, resulting in a gain of KD 53,179 that was recorded in the consolidated statement of profit or loss. The Group collected an amount of KD 1,000,000 and the remaining balance of KD 1,201,065 will be collected during the year 2022 (Note 13) once the Group completes the process of transferring the ownership. Also, the Group partially sold investment in an associate (Middle East Complex for Eng., Electronics & Heavy Industries - PLC (“MECE”)) for an amount of KD 1,560, resulting in a gain of KD 546 that was recorded in the consolidated statement of profit or loss.
- b) Represents adjustment due to loss from the sale of financial assets at fair value through other comprehensive income to an associate (Note 12) during the year ended 31 December 2021 which has been eliminated to the extent of the Group's ownership interest in the associate.
- c) As at 31 December 2021, The fair value of the Groups' investment in “Middle East Complex for Eng., Electronics & Heavy Industries PLC (MECE)” and “National Industries Company – K.P.S.C. (NIC)” based on quoted exchange market prices were KD 3,510,985 and KD 9,600,473 respectively, and the carrying value of these associates amounted KD 5,609,347 and KD 17,253,295 respectively, that exceeds its market price. Accordingly, the Group concludes that the CGU should be tested for impairment.

Management considered the performance outlook and business operations of the CGU to determine whether the carrying amount does not exceed the recoverable amount.

The recoverable amount of NIC has been determined by obtaining independent valuation of the significant associate' assets and perform test of impairment using adjusted NAV.

The recoverable amount of MECE has been determined based on a value in use calculation performed by external valuer, using cash flow projections approved by senior management covering a five-year period. The discount rates used is in 15.64% applied to cash flow projections over a five-year period. Cash flows beyond the five-year period are extrapolated using a projected growth rate of 2.80%.

As a result of management assessment for impairment test, the recoverable as at 31 December 2021 exceeds the carrying amount. Accordingly, The Group did not record an impairment loss for the year ended 31 December 2021.

Notes to the consolidated financial statements  
For the year ended 31 December 2021

12. Financial assets at fair value through other comprehensive income

	2021	2020
	KD	KD
Quoted securities	408,475	341,596
Unquoted securities	1,014,139	4,352,926
Funds and portfolios	1,127,604	2,649,875
	<u>2,550,218</u>	<u>7,344,397</u>

During the year ended 31 December 2021, the Group sold unquoted securities to a related party (Group's associate) for an amount of KD 2,500,042. As a result, the Group recognized a loss from sale of financial assets at fair value through other comprehensive income amounting to KD 383,429 in accumulated losses in the consolidated statement of changes in equity after elimination of KD 289,003 representing the share of loss to the extent of the Group's ownership interest in the associate (Note 11).

At 31 December 2021, the Group held certain equity securities of related parties with a carrying value of KD 831 (2020: KD 3,256,778).

Financial assets at fair value through other comprehensive income amounting to KD 1,524,553 (2020: KD 2,942,272) are secured against certain term loans (Note 19).

Valuation techniques of financial assets at fair value through other comprehensive income ("FVOCI") are disclosed in Note 26.

13. Accounts receivable and other debit balances

	2021	2020
	KD	KD
Trade receivables	9,784,144	10,729,225
Due from related parties (Note 22)	7,866,568	6,269,256
Interest receivable	3,000,000	3,000,000
Prepaid expenses and accrued income	115,790	115,508
Advances to project under progress	6,017,126	5,338,661
Advances to supplier	521,235	608,175
Receivables from sale of investment in an associate (Note 11)	1,201,065	-
Other receivables	1,137,587	1,187,151
	<u>29,643,515</u>	<u>27,247,976</u>
Provision for expected credit losses (a)	<u>(3,337,035)</u>	<u>(3,152,084)</u>
	<u>26,306,480</u>	<u>24,095,892</u>

a) The movement on provision for expected credit losses is as follows:

	2021	2020
	KD	KD
Balance at the beginning of the year	3,152,084	3,779,730
Charge for the year	184,951	110,867
Used during the year	-	(738,513)
Balance at the end of the year	<u>3,337,035</u>	<u>3,152,084</u>

Accounts receivable and other debit balances are represented in the following:

	2021	2020
	KD	KD
Non-current portion	6,762,573	4,883,387
Current portion	19,543,907	19,212,505
	<u>26,306,480</u>	<u>24,095,892</u>

**Privatization Holding Company – K.P.S.C. and its subsidiaries  
State of Kuwait**

**Notes to the consolidated financial statements  
For the year ended 31 December 2021**

**14. Financial assets at fair value through profit or loss**

	<u>2021</u>	<u>2020</u>
	KD	KD
Quoted securities	10,052,164	9,649,359
Unquoted securities	11,900,848	15,179,738
Mutual funds	286,362	751,129
	<u>22,239,374</u>	<u>25,580,226</u>

At 31 December 2021, the Group held certain equity securities of related parties with a carrying value of KD 3,396,637 (2020: KD 6,459,634).

Financial assets at fair value through profit or loss amounting to KD 19,459,514 (2020: KD 19,247,218) are pledged against certain term loans (Note 19).

Valuation techniques of financial assets at fair value through profit or loss are disclosed in Note 26.

**15. Cash and cash equivalents**

Cash and cash equivalents included in the consolidated statement of cash flows comprise of the following:

	<u>2021</u>	<u>2020</u>
	KD	KD
Cash on hand and at banks	1,409,187	1,426,753
Cash at portfolios	195,216	20,166
Short term bank deposits	501	500
Restricted cash*	104,066	45,667
	<u>1,708,970</u>	<u>1,493,086</u>
Less: Bank overdraft	<u>(717,362)</u>	<u>(867,454)</u>
Cash and cash equivalents as per statement of cash flow	<u>991,608</u>	<u>625,632</u>

\* This balance represents cash restricted against bank facilities.

The effective interest rate on foreign short-term bank deposits ranges 0.5% (2020: 1%) per annum.

Bank overdraft represents a bank overdraft facility that carries an interest rate ranging from 4% to 9.5% (2020: 5% to 9.5%) per annum.

**16. Capital and share premium**

The authorized, issued and fully paid capital is KD 61,000,000 divided into 610,000,000 shares with a nominal value of 100 fils each and all shares are paid in cash.

Share premium represents cash received in excess of the par value of the shares issued. The share premium is not available for distribution except in cases stipulated by law.

**17. Statutory reserve**

As required by the Companies Law and the Parent Company's Articles of Association, 10% of the profit for the year attributable to shareholders of the Parent Company before contribution to Kuwait Foundation for the Advancement of Sciences (KFAS), National Labor Support Tax (NLST), Zakat and Board of Directors' remuneration is transferred to statutory reserve. The Parent Company may resolve to discontinue such annual transfers when the reserve exceeds 50% of the capital. Distribution of statutory reserve is limited to the amount required to enable the payment of a dividend of 5% of paid up share capital to be made in years when retained earnings are not sufficient for the payment of a dividend of that amount. Since there is a net loss for the year, there was no transfer to statutory reserve during the year.

**Privatization Holding Company – K.P.S.C. and its subsidiaries  
State of Kuwait**

**Notes to the consolidated financial statements  
For the year ended 31 December 2021**

**18. General reserve**

As required by the Parent Company's Articles of Association, 10% of the profit for the year attributable to shareholders of the Parent Company before contribution to KFAS, NLST, Zakat and Board of Directors' remuneration is transferred to the general reserve. Such annual transfers may be discontinued by a resolution of the shareholders' General Assembly upon recommendation by the Board of Directors. Since there is a net loss for the year, there was no transfer to general reserve during the year.

**19. Term loans**

	<u>2021</u> KD	<u>2020</u> KD
Term loans obtain from local financial institutions and a related party and carrying interest rate range from 1.5% to 4% per annum over the Central Bank of Kuwait discount rate	21,234,391	23,972,921
Term loans obtain from a foreign financial institutions and carry interest rate range from 8.5% to 9.75% per annum	4,849,380	4,995,793
	<u>26,083,771</u>	<u>28,968,714</u>

Certain investment in subsidiaries, associates, financial assets at fair value through profit or loss and financial assets at fair value through other comprehensive income are secured against term loans (Note 11, 12 and 14).

Term loans are represented in the following:

	<u>2021</u> KD	<u>2020</u> KD
Non-current portion	5,199,250	8,479,551
Current portion	20,884,521	20,489,163
	<u>26,083,771</u>	<u>28,968,714</u>

**20. Accounts payable and other credit balances**

	<u>2021</u> KD	<u>2020</u> KD
Trade payable	1,096,603	2,234,140
Due to related parties (a) (Note 22)	11,418,932	3,032,515
Fixed assets payable*	3,030,531	5,063,026
Accrued expenses and other liabilities	4,210,713	4,869,274
	<u>19,756,779</u>	<u>15,198,955</u>

(a) During the year ended 31 December 2021, the Group received an amount of KD 3,018,000 from a related party and its carry an interest rate of 1.5% over the Central Bank of Kuwait discount rate.

\*Property, plant and equipment amounting to KD 3,754,230 (2020: KD 3,754,055) are secured against fixed assets payable (Note 8). This balance is payable in 3 installments on annual basis and carries an interest rate of 5.3% per annum.

Accounts payable and other credit balances are represented in the following:

	<u>2021</u> KD	<u>2020</u> KD
Non-current portion	2,100,094	3,143,263
Current portion	17,656,685	12,055,692
	<u>19,756,779</u>	<u>15,198,955</u>

**Privatization Holding Company – K.P.S.C. and its subsidiaries  
State of Kuwait**

**Notes to the consolidated financial statements  
For the year ended 31 December 2021**

**21. Annual General Assembly of the Shareholder of the Parent Company**

The Board of Directors' meeting held on 22 March 2022 proposed not to distribute cash dividends and not to distribute Board of Directors' remuneration for the year ended 31 December 2021. These proposals are subject to the approval of the Shareholders' Annual General Assembly.

The Shareholders' Annual General Assembly meeting of the Parent Company held on 10 May 2021 has approved the consolidated financial statements for the year ended 31 December 2020, and approved not to distribute cash dividends and Board of Directors' remuneration for the year ended 31 December 2020.

The Shareholders' Annual General Assembly meeting of the Parent Company held on 21 June 2020 has approved the consolidated financial statements for the year ended 31 December 2019, and approved not to distribute cash dividends and Board of Directors' remuneration for the year ended 31 December 2019.

**22. Related party transactions and balances**

Related parties represent major Shareholders, associates, directors, key management personnel of the Group and entities controlled, jointly controlled or significantly influenced by such parties. Pricing policies and terms of these transactions are to be approved by the Group's management.

Transactions and balances with related parties included in the consolidated financial statements are as follows:

<b><u>Transactions included in consolidated statement of profit or loss:</u></b>	<b><u>2021</u></b>	<b><u>2020</u></b>
	<b>KD</b>	<b>KD</b>
Dividend income	216	74,977

**Privatization Holding Company – K.P.S.C. and its subsidiaries  
State of Kuwait**

**Notes to the consolidated financial statements  
For the year ended 31 December 2021**

**23. Capital commitments and contingencies**

	<u>2021</u>	<u>2020</u>
	<u>KD</u>	<u>KD</u>
<b>Capital commitments</b>		
Project commitments	14,533,472	678,465
Other commitments	94,448	847,024
	<u>14,627,920</u>	<u>1,525,489</u>

**Contingencies**

At the reporting date, the Group has provided performance bank guarantees to a customer and suppliers amounting to KD 3,704,938 (31 December 2020: KD 3,617,931) and to Public Authority for Housing Welfare amounting to KD 3,120,180 (31 December 2020: KD 3,120,180) from which it is anticipated that no material liabilities will arise.

The Parent Company and other parties have guaranteed other party (debtor Company) personally against a loan of KD 72.6 million with National Bank of Kuwait (NBK) during 2012. The debtor Company subsequently signed loan renewal agreements, which the Parent Company was not a party on it, to combine the loan with other debts of natural and legal persons. Its agreed to a new maturity dates represented on eleven annual installments commencing 15 June 2016 upon together with providing in-kind guarantees. The Parent Company has not renewed its guarantee obligations in renewal agreements.

The debtor Company settled under the new agreements and the remaining balance due was KD 26,297,015 (excluding interest). NBK initiated execution procedures on the balance against the debtor Company and guarantors including the Parent Company, being a guarantor. The Court rendered a judgment in the complaint filed by the Parent Company to stop execution of the agreement. Further, the Parent Company has filed a claim for invalidity of the agreement and expiration of the guarantee where no judgment was issued until the reporting date.

The Group's management believes that Parent Company is neither a party nor obligated by the guarantee agreement. It is not possible to estimate the financial results that may arise from these lawsuits until a final decision is issued by the Court. Accordingly, financial impact could not be determined.

**Privatization Holding Company – K.P.S.C. and its subsidiaries  
State of Kuwait**

**Notes to the consolidated financial statements  
For the year ended 31 December 2021**

**24. Segmental information**

For management purposes, the Group is organized into business units based on nature of business and has two reportable operating segments as follows:

- i) Investment segment represents trading in equities including certain investment in associates and other strategic investments; and
- ii) Other segment represents rendering of non-investment services and general trading and contracting.

Management monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on return on investments.

	Investment		Other		Total

**24. Segmental information (Continued)**

**Geographic information**

The Group operates in two geographic regions; Kuwait and Non-Kuwait. The following table shows the distribution of the Group's segment revenue and non-current assets by region:

	<u>2021</u>	<u>2020</u>
	KD	KD
<b>Revenue</b>		
Kuwait	7,173,904	1,232,700
Non-Kuwait	<u>1,311,437</u>	<u>7,578,807</u>
	<u>8,485,341</u>	<u>8,811,507</u>

The revenue information above is based on the location of the assets generating the income.

	<u>2021</u>	<u>2020</u>
	KD	KD
<b>Non-current assets</b>		
Kuwait	42,341,398	43,106,756
Non-Kuwait	<u>34,172,467</u>	<u>32,553,000</u>
	<u>76,513,865</u>	<u>75,659,756</u>

**25. Financial risk management**

The Group's activities expose it to variety of financial risks: market risk (including foreign currency risk, equity price risk and interest rate risk), credit risk and liquidity risk.

The Parent Company's Board of Directors is ultimately responsible for the overall risk management and for approving risk strategies and principles. The Group's risk management focuses on actively securing the Group's short to medium term cash flows by minimizing the potential adverse effects on the Group's financial performance. Long term financial investments are managed to generate lasting returns.

The Group does not enter into or trade financial instruments, including derivative financial instruments, for speculative purposes. The most significant financial risks to which the Group is exposed are described below.

**25.1 Market risk**

**a) Foreign currency risk**

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in foreign exchange rates.

The Group mainly operates in Kuwait and the Middle East and is exposed to foreign currency risk arising from various foreign currency exposures, primarily with respect to US Dollar, Euro, Jordanian Dinar, Egyptian Pound and others. The Group's financial position can be significantly affected by the movement in these currencies. To mitigate the Group's exposure to foreign currency risk, non-Kuwaiti Dinar cash flows are monitored.

**Privatization Holding Company – K.P.S.C. and its subsidiaries  
State of Kuwait**

**Notes to the consolidated financial statements  
For the year ended 31 December 2021**

**25. Financial risk management (Continued)**

**25.1 Market risk (Continued)**

**a) Foreign currency risk (Continued)**

The Group had the following net significant exposures denominated in foreign currencies, translated into Kuwaiti Dinar at the closing rate:

	<u>2021</u>	<u>2020</u>
	KD	KD
US Dollar	1,209,236	1,852,826
Euro	199,248	663,800
Jordanian Dinar	563,163	455,512
Egyptian Pound	281,417	312,305
Others	183,148	178,734

The foreign currency sensitivity is determined based on 5%, increase or decrease in exchange rates. If the Kuwaiti Dinar had strengthened / (weakened) against the foreign currencies assuming the above sensitivity, then this would have the following impact on the profit or loss for the year and equity:

	<u>2021</u>		<u>2020</u>	
	Effect on profit or loss	Effect on other comprehensive income	Effect on profit or loss	Effect on other comprehensive income
	KD	KD	KD	KD
US Dollar	±140,325	±79,863	±63,393	±156,035
Euro	±9,962	-	±33,190	-
Jordanian Dinar	±23,820	±4,338	±20,203	±2,573
Egyptian Pound	±14,071	-	±15,615	-
Others	±221	±8,936	±57	±8,880

Exposures to foreign exchange rates vary during the year depending on the volume and nature of the transactions. Nonetheless, the analysis above is considered to be representative of the Group's exposure to the foreign currency risk.

**b) Equity price risk**

Equity price risk is the risk that fair values of equity securities fluctuate as a result of changes in the level of equity indices and the value of the individual stocks.

The Group is exposed to equity price risk mainly to its quoted securities. To manage its equity price risk the Group diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by the Group.

The sensitivity analyses below have been determined based on the exposure to price risks at the reporting date.

Notes to the consolidated financial statements  
For the year ended 31 December 2021

25. Financial risk management (Continued)

25.1 Market risk (Continued)

b) Equity price risk (Continued)

If prices had been 5% higher/lower, the effect on the changes in profit or loss, other comprehensive income for the years ended 31 December 2021 and 2020 as follows:

	2021		2020	
	Effect on profit or loss KD	Effect on other comprehensive income KD	Effect on profit or loss KD	Effect on other comprehensive income KD
Financial assets at fair value through other comprehensive income	-	±20,424	-	±17,080
Financial assets at fair value through profit or loss	±502,608	-	±482,468	-

c) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's term loans and banks overdraft with floating interest rates as well as term deposits. The effect on Group's profit due to (increase) / decrease in the interest rate by 25 basis points, with all variables held constant is as follows

	2021 KD	2020 KD
Effect on profit or loss	±46,383	±52,616

The calculations are based on the group's financial instruments held at each consolidated financial position date.

There has been no change during the year in the methods and assumption used in preparing the sensitivity analysis

25.2 Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge a contractual obligation causing the other party to incur a financial loss. Financial assets which potentially subject the Group to credit risk consist principally of cash at banks, short term bank deposits and accounts receivable. Accounts receivables and other debit balances are presented net of allowance for expected credit losses.

## 25. Financial risk management (Continued)

### 25.2 Credit risk (Continued)

#### Trade receivables

The Group applies the IFRS 9 simplified model of recognizing lifetime expected credit losses for all trade receivables as these items do not have a significant financing component. In measuring the expected credit losses, trade receivables have been assessed on a collective basis respectively and grouped based on shared credit risk characteristics and the days past due.

The expected loss rates are based on the payment profile for sales over the past or aging profile of customers over the past 3-5 years before 31 December 2021 as well as the corresponding historical credit losses during that period. The historical rates are adjusted to reflect current and forwarding looking macroeconomic factors affecting the customer's ability to settle the amount outstanding. However given the short period exposed to credit risk, the impact of these macroeconomic factors has not been considered significant within the reporting period.

Trade receivables are written off (i.e. derecognized) when there is no reasonable expectation of recovery. Failure to make payments within 365 days from the invoice date and failure to engage with the Group on alternative payment arrangement amongst other is considered indicators of no reasonable expectation of recovery and therefore is considered as credit impaired.

During the year ended 31 December 2021, the Group has recorded additional provision for expected credit losses of KD 184,951 (2020: KD 110,867).

#### Deposits and bank balances

The Group's cash at banks and short term bank deposits measured at amortized cost are considered to have a low credit risk and the loss allowance is based on the 12 months expected loss. The Group's cash and deposits are placed with high credit rating financial institutions with no recent history of default. Based on management's assessment, the expected credit loss impact arising from such financial assets are insignificant to the Group as the risk of default has not increased significantly since initial recognition.

The Group's exposure to credit risk is limited to the carrying amounts of financial assets recognised at the consolidated financial position date, as summarized below:

	<u>2021</u>	<u>2020</u>
	KD	KD
Cash and cash equivalents (excluding cash on hand)	1,689,012	1,459,992
Accounts receivable and other debit balances (excluding prepayments and advances)	19,652,329	18,033,548
	<u>21,341,341</u>	<u>19,493,540</u>

### 25.3 Liquidity risk

Liquidity risk is the risk that the Group will be unable to meet its liabilities when they fall due. To limit this risk, management has arranged diversified funding sources, manages assets with liquidity in mind, and monitors liquidity on a daily basis.

**25. Financial risk management (Continued)**

**25.3 Liquidity risk (Continued)**

The table below summarises the maturity profile of the Group's financial liabilities. The maturities of financial liabilities have been determined on the basis of the remaining period from the financial position date to the contractual maturity date.

The contractual maturity profile of the financial liabilities based on undiscounted cash flow is as follows:

	<u>Less than 3 months KD</u>	<u>3 to 12 months KD</u>	<u>Over 1 year KD</u>	<u>Total KD</u>
<b>31 December 2021</b>				
Term loans	-	20,884,521	5,199,250	26,083,771
Bank overdraft	717,362	-	-	717,362
Accounts payable and other credit balances	10,987,970	6,558,878	2,100,094	19,646,942
	<u>11,705,332</u>	<u>27,443,399</u>	<u>7,299,344</u>	<u>46,448,075</u>
<b>31 December 2020</b>				
Term loans	-	20,489,163	8,479,551	28,968,714
Bank overdraft	867,454	-	-	867,454
Accounts payable and other credit balances	5,265,700	6,767,674	3,143,263	15,176,637
	<u>6,133,154</u>	<u>27,256,837</u>	<u>11,622,814</u>	<u>45,012,805</u>

**26. Fair value measurement**

**26.1 Fair value hierarchy**

Fair value represents the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Financial assets and financial liabilities measured at fair value in the consolidated statement of financial position are grouped into three levels of a fair value hierarchy.

The three levels are defined based on the observability of significant inputs to the measurement, as follows:

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2 fair value measurements are those derived from inputs other than quoted prices that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Privatization Holding Company – K.P.S.C. and its subsidiaries  
State of Kuwait

Notes to the consolidated financial statements  
For the year ended 31 December 2021

26. Fair value measurement (Continued)

26.2 Fair value measurement of financial instruments

The carrying amounts of the Group's financial assets and liabilities as stated in the consolidated statement of financial position are as follows:

	2021 KD	2020 KD
<b>Financial assets:</b>		
<i>Financial assets at fair value through other comprehensive income:</i>		
Financial assets at fair value through other comprehensive income	2,550,218	7,344,397
<i>Financial assets at amortised cost:</i>		
Accounts receivable and other debit balances (excluding prepayments and advances)	19,652,329	18,033,548
Cash and cash equivalents	1,708,970	1,493,086
<i>Financial assets at fair value through profit or loss:</i>		
Financial assets at fair value through profit or loss	22,239,374	25,580,226
	<u>46,150,891</u>	<u>52,451,257</u>
<b>Financial liabilities:</b>		
<i>Financial liabilities at amortised cost:</i>		
Term loans	26,083,771	28,968,714
Accounts payable and other credit balances (excluding advances)	19,646,942	15,176,637
Bank overdraft	717,362	867,454
	<u>46,448,075</u>	<u>45,012,805</u>

Management considers that the carrying amounts of all financial assets and liabilities, which are stated at amortised cost, approximate their fair values.

The level within which the financial asset or liability is classified is determined based on the lowest level of significant input to the fair value measurement.

The financial assets measured at fair value on a recurring basis in the consolidated statement of financial position are grouped into the fair value hierarchy as follows:

31 December 2021	Level 1 KD	Level 2 KD	Level 3 KD	Total KD
<b>Financial assets at fair value through other comprehensive income:</b>				
Quoted securities	408,475	-	-	408,475
Funds and portfolios	-	1,127,604	-	1,127,604
Unquoted securities	-	-	1,014,139	1,014,139
<b>Financial assets at fair value through profit or loss:</b>				
Quoted securities	10,052,164	-	-	10,052,164
Mutual funds	-	286,362	-	286,362
Unquoted securities	-	863,210	11,037,638	11,900,848
	<u>10,460,639</u>	<u>2,277,176</u>	<u>12,051,777</u>	<u>24,789,592</u>

**Notes to the consolidated financial statements  
For the year ended 31 December 2021**

**26. Fair value measurement (Continued)**

**26.2 Fair value measurement of financial instruments (Continued)**

31 December 2020	Level 1	Level 2	Level 3	Total
Financial assets at fair value through other comprehensive income:	KD	KD	KD	KD
Quoted securities	341,596	-	-	341,596
Funds and portfolios	-	2,649,875	-	2,649,875
Unquoted securities	-	-	4,352,926	4,352,926
<b>Financial assets at fair value through profit or loss:</b>				
Quoted securities	9,649,359	-	-	9,649,359
Mutual funds	-	751,129	-	751,129
Unquoted securities	-	4,000,388	11,179,350	15,179,738
	<u>9,990,955</u>	<u>7,401,392</u>	<u>15,532,276</u>	<u>32,924,623</u>

During the year, there were no transfers between levels 1, 2 and 3.

**26.3 Non-financial instruments**

Investment property were fair valued at 31 December 2021 and are classified under level 2 fair value hierarchy.

**27. Capital management objectives**

The Group's capital management objectives are to ensure the Group's ability to continue as a going concern and to provide adequate return to its Shareholders through the optimization of the capital structure to reduce the cost of such financial recourses.

The capital of the Group comprise of total equity. The Group manages the capital structure and makes adjustments in the light of changes in economic conditions and risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to Shareholders, return capital to Shareholders, issue new shares or sell assets to reduce debt.

Consistent with others in the industry, the Group monitors capital on the basis of the gearing ratio.

This ratio is calculated as net debt divided by the total equity and net debt as follows:

	2021	2020
	KD	KD
Term loans	26,083,771	28,968,714
Bank overdraft	717,362	867,454
Fixed assets payable	3,030,531	5,063,026
Less: Cash and cash equivalents	<u>(1,708,970)</u>	<u>(1,493,086)</u>
Net debt	28,122,694	33,406,108
Equity attributable to Shareholders of the Parent Company	73,822,100	76,544,577
Total capital and net debt	<u>101,944,794</u>	<u>109,950,685</u>
Gearing ratio	<u>27.59%</u>	<u>30.38%</u>

**28. Legal claims**

There are legal cases being raised by and against the Group as of 31 December 2021 and according to the available information, it was not possible to reliably estimate the liability due for certain cases.
